

Foundations Lessons

Introductory Video

Hi. I'm here to tell you about a resource that's designed to help new believers in Jesus Christ get a firm foundation to their faith. I'm talking about the website at www.foundationsofthefaitth.org. Here you'll find 20 lessons on the most basic and important truths that believers need in order to grow strong in the Lord.

Each lesson has five components. The first component is the lesson outline, which is the cornerstone of each lesson. On it, you'll find the truths of that topic neatly organized, so that it's easy to follow along. Outlines are posted as .pdf files and can be easily downloaded and printed out. By the way, this website's been created as a free contribution to the body of Christ at large. Although the creators have worked diligently to maintain a high quality in all that's being offered, there's no charge for any of the materials posted.

The second component of each lesson is the Spoken Lesson. Here you can listen to the teaching as it follows the outline. The Spoken Lesson for each teaching is about an hour long, but it's broken up into three, four, or five segments, depending upon the lesson.

The third component is the Transcript of the Spoken Lesson. For those people who'd rather read the teaching than listen to it, it can be downloaded – again as a .pdf file.

The fourth component is the Scriptures & Quotes document. Here you'll find all the Scripture passages from the outline printed out in the order they appear, along with the quotes that were read in the Spoken Lesson, so anyone who wants to review the lesson quickly can do so.

The fifth component is the Resources for Teachers section. Here, the outline, the transcript, and the Scriptures and Quotes document are posted in an editable version as .docx files. So if you're a teacher and you want to adapt this material to your own unique situation, you can download the files and edit them in your word processing software.

Then, in addition to the five components already mentioned, some lessons have other additional resources, like this handout on Proud & Humble Thinking, or this one on the prayer life of Jesus.

So if you've recently come into the Kingdom of God, these lessons are for you. I'd encourage you to start with Lesson #1 and take in each lesson in the order that it's given.

If you're a leader in the church and you're interested in checking out this website to see if it might be something you could use, I'd encourage you to go to Lesson #2 on Prayer, Lesson #15 on Eternal Judgment, or Lesson #18 on Pride & Humility. Those lessons should give you the best idea of what this site's all about. Even mature believers have testified that they've been blessed by these lessons.

Amen. God bless you all.
